Subject: FW: Revised -- LOGCAP RFIs re: Fort Bliss (UNCLASSIFIED)
Importance: High

(b) (6) ,

I have updated the spreadsheet with additional ED comments. We will send additional updates as we get the information for the RFIs.

I removed a comment from the following RFI:

FBTX-26 Connector Road to Spur 601-

Note, work on this trail would cross the Butterfield Trail, generating consultation from SHPO.

The section of the butterfly trail in parcel 2 has already been consulted on:

Per the State Historic Preservation Office (consultation October 25, 2015 for proposed land sale)-The segment of the butterfly trail within parcel does not contribute to the site's overall National Register significance. Disposition of the parcel without protective measures will have no adverse effect on the portions of the historic trail remaining on Fort Bliss property.

Thank you,

Subject: Revised -- LOGCAP RFIs re: Fort Bliss (UNCLASSIFIED)
Importance: High

CLASSIFICATION: UNCLASSIFIED

Team,

Please see attached a list of RFIs from LOGCAP ref potential camp build IVO Site Monitor. Tracking that you have done a lot of research and Q/A for the past few weeks.

1. Please provide (b) (6) by COB 7 AUG 10 a date estimate on when you can have answers to the attached RFIs.
2. Please send your respective updates/answers to (b) (6) NLT COB 9 AUG 18 for DPW and DDPW's review and approval.
3. Once approved by DPW, (b) (6) will send the DPW consolidated answers to (b) (6).

Thanks,

(b) (6)

I sent a request to the utility providers for the general condition response.

What info does MPD have on these bldgs. including pictures? The general condition should fall under MPD, but if you are having facility issues that will be on OMD. If we have ISR inspection reports we will share with the group. If a joint inspection is needed to get the general condition please request one and we will support MPD.

Thanks,

For Wednesday's SVTC on the DHS mission, I need to provide info on Site Monitor. Here is the info I need:

- Breakdown of each structure at Site Monitor and its Q rating.
- If a structure is rated as Q4, then is it still authorized and/or advisable to be used by DHS for admin and/or wrap around facility use
- For my edification, how do we rate portable facilities. Some of the facilities there are relocatable and I'm not sure if we evaluate non-permanent structures.

Thanks.

BLUF: Fort Bliss and HQDA are exploring authorities to offer Site Monitor facilities to LOGCAP and/or DHS for potential administrative use.

Support to DHS remains the priority of effort, although no further indication of a trigger to begin support.

POTENTIAL ADDITIONAL SUPPORT:

- Fort Bliss is prepared to offer Site Monitor (preexisting facilities adjacent to Parcel 2).
- Facilities are slated for future destruction, and use by either LOGCAP or DHS would not impact readiness or training. The facilities are not sufficient for housing purposes.
- Site Monitor could be used for LOGCAP C2 during contract execution or used by DHS for C2, or common area structures such as classroom(s), courtroom, media center, etc.

MEMORANDUM OF AGREEMENT (MOA): Draft DHS MOA continues FORSCOM GO/SES coordination.

Per our telephone discussion I will plan to come by your building after the 1030A meeting this morning with (b) (6).

This will work out perfect as I've been tasked to provide detailed photos and topographical analysis of the proposed site area due to the significant cost in site prep required. Your input will be invaluable in establishing a baseline to support cost estimates and required construction funding and schedule timeline to meet the anticipated IOC/FOC dates.

I look forward to discussing all.

Cc: (b) (6)
Subject: DHHS FT Bliss Site Survey (UNCLASSIFIED)
Date: Friday, June 1, 2018 1:17:51 PM

CLASSIFICATION: UNCLASSIFIED

(b) (6),
I will be out of the office 4-15 June. (b) (6) will be out of the office 1-11 June. If the site visit occurs before (b) (6) returns on 12 June, please ensure all on the email are provided with information/invitation. (b) (6) will have the lead for Master Planning Division.

(b) (6),
Please coordinate with DPW Team and sure POCs are in attendance to discuss:

*utility locations (including underground): POC will be available on site, but utility info already provided (first attachment); all utilities must be metered; DHHS must set up a Utilities Sales Agreement (POC will be available to discuss)

*environmental concerns and requirements for use for this purpose: POC will be available on site

*land site preparation (I.e. grading, leveling): DHHS will have to perform/contract this effort; a Proprietary Approval Work Order must be submitted through the Work Order Desk by DHHS for siting and construction approval (POC will be available to discuss)

You will have to remind DHHS POC:

*public works for utilities, maps, charts (e.g. flood plain): DHHS will have to obtain flood plain maps from FEMA

*requirements to obtain the land usage permit(s) as required: POC for USACE Fort Worth District provided. DHHS must submit a real estate application for approval.

*discussion on clearance of contractors and base access: From the Real Estate perspective, Real Estate permit/license will authorize work on FBTX lands; Right of Entry (ROE) will be needed if immediate access is required. DHHS must contact USACE Real Estate POC.

Thank you!

Subject: FW: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

(b) (6), I will defer to the DPW team to select preferred dates over the next three weeks for HHS to visit to conduct a survey of the land previously identified. This time around will be much more detail focused than the recent site visit. The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

We should be able to manage the majority of the coordination in one to two days, and will primarily work out of the conference room in 2027, 1AD HQs.

Please provide me your preferred dates before noon tomorrow or give me a call if DPW cannot respond that quickly. Once we lock in dates, you and I can coordinate the details of who needs to attend and what maps, charts, documents that would be appropriate to have available.

DES, we will need same degree of fidelity available for this survey to get after the clearance of contractors and access to the installation.

To the team-I guess they didn't like my recommendation to go to Goodfellow in San Antonio.

Cc: (b) (6)

Subject: RE: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

(b) (6),

OUSD-Policy just e-mailed me from a meeting at HHS.

The following concerns the previously noted site survey:

HHS would like to get started on scheduling survey dates. At present there is only one survey team, and HHS would like to visit Ft Bliss first.

The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

HHS teams would include public works types and contractors to review/discuss the topics described above. HHS estimates an HHS survey team being about 10 personnel, and the survey should be complete in one day.

Policy respectfully requests you provide some preferred dates for us to provide to HHS so they can make an informed decision.

Policy is requesting acceptable dates over the next three weeks.

Understand it may be too short to have that info today, but soonest would be much appreciated.

As a reminder, these surveys will require coordinated DoD/HHS congressional notification. That also means we need to be careful about sharing these dates until they are firm and appropriate notifications made.

Thank you for all your assistance with this matter.

(b) (6)

Just wanted to touch base.

We are still waiting for additional data from HHS regarding potential site survey to facilitate your decision process on setting potential dates.

OUSD believes HHS will conduct surveys regardless of current / identified need for sites.

Additionally, they have yet to issues a prioritization list, but will be surveying a few sites from other agencies next week, so that would slide an "earliest date" for FT Bliss to the right.

Word from Policy is that HHS liked FT Bliss and Goodfellow about the same, for different factors.

I will keep you apprised of any change.

Subject: FT Bliss Availability for Potential Site Survey

(b) (6)

Thanks again for last week's assistance.

Separately, during a meeting today with OSD-Policy, they indicated HHS appreciation for last week's informal and initial site visit.

Policy also expressed a desire to know how soon, after the Memorial Day Weekend, FT Bliss (as well as the other potential installations from Air Force) would be able to conduct formal site visits.

We expect HHS to reveal their order of preference to policy today and could submit an RFA for the site visits any

time after.

Policy wants to lean forward with some of the initial planning partly in order to go through the process once for all three potential installations, as opposed to doing each one separately.

If possible, I'd like to forward the potential survey date(s) to policy during tomorrow's meeting (1230 EDT / 1030 MDT)

Any help would be much appreciated.

v/r

For Wednesday's SVTC on the DHS mission, I need to provide info on Site Monitor. Here is the info I need:

- Breakdown of each structure at Site Monitor and its Q rating.
- If a structure is rated as Q4, then is it still authorized and/or advisable to be used by DHS for admin and/or wrap around facility use
- For my edification, how do we rate portable facilities. Some of the facilities there are relocatable and I'm not sure if we evaluate non-permanent structures.

Thanks.

BLUF: Fort Bliss and HQDA are exploring authorities to offer Site Monitor facilities to LOGCAP and/or DHS for potential administrative use.

Support to DHS remains the priority of effort, although no further indication of a trigger to begin support.

POTENTIAL ADDITIONAL SUPPORT:

- Fort Bliss is prepared to offer Site Monitor (preexisting facilities adjacent to Parcel 2).
- Facilities are slated for future destruction, and use by either LOGCAP or DHS would not impact readiness or training. The facilities are not sufficient for housing purposes.
- Site Monitor could be used for LOGCAP C2 during contract execution or used by DHS for C2, or common area structures such as classroom(s), courtroom, media center, etc.

MEMORANDUM OF AGREEMENT (MOA): Draft DHS MOA continues FORSCOM GO/SES coordination.

For Wednesday's SVTC on the DHS mission, I need to provide info on Site Monitor. Here is the info I need:

- Breakdown of each structure at Site Monitor and its Q rating.
- If a structure is rated as Q4, then is it still authorized and/or advisable to be used by DHS for admin and/or wrap around facility use
- For my edification, how do we rate portable facilities. Some of the facilities there are relocatable and I'm not sure if we evaluate non-permanent structures.

Thanks.

Sir,

BLUF: Fort Bliss and HQDA are exploring authorities to offer Site Monitor facilities to LOGCAP and/or DHS for potential administrative use.

Support to DHS remains the priority of effort, although no further indication of a trigger to begin support.

POTENTIAL ADDITIONAL SUPPORT:

- Fort Bliss is prepared to offer Site Monitor (preexisting facilities adjacent to Parcel 2).
- Facilities are slated for future destruction, and use by either LOGCAP or DHS would not impact readiness or training. The facilities are not sufficient for housing purposes.
- Site Monitor could be used for LOGCAP C2 during contract execution or used by DHS for C2, or common area structures such as classroom(s), courtroom, media center, etc.

MEMORANDUM OF AGREEMENT (MOA): Draft DHS MOA continues FORSCOM GO/SES coordination.

CLASSIFICATION: UNCLASSIFIED

Sir,

As (b) (6) stated, DHHS is concerned with the amount of grading and compaction required to make the site useable. They asked about the availability of using the hardstand on that dead end road for their site (see attached). I told them we have a MILCON project to construct SSAs along that road starting in FY19. Also explained is would only provide a couple of acres for them to set up operations. Not sure we want to entertain this as an option unless they complete their mission and restore any damages to the road prior to the SSA project start in FY19.

Subject: RE: DHHS Site Survey (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

(b) (6)

Just got back from this site survey. ED, MPD, SED, and OMD attended the meeting. DHHS wanted to see the site again to take a closer look at the utility infrastructure and land. I showed them the utility maps again. DHHS just needed to see how close the utilities are to the area that is being considered over by Liberty Road and the Industrial complex.

DHHS was hoping for the land to be a bit more flat, but they will have to do a lot of grading if they select this area. I also repeated what we discussed with (b) (6) last week regarding DPW's manpower requirement if DHHS decides to build in this area in order for DPW to support DHHS with real property actions and the use of our privatized utility providers. I also mentioned that they can also approach El Paso utilities. DHHS is still considering going all portable, but no definite answer could be provided at this time. ED reminded them that they would need permits if they use generator power. No timeline could be given to the group until DHHS selects the site.

They also asked (b) (6) a few questions about using the paved road, mainly the dead end over by the SSA warehouses, but I'll let Lee fill you in on this.

Thanks,

(b) (6)

Subject: RE: RFIs (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

Ma'am,

I can get the responses to (b) (6) requests below for storm water retention pond design, and a copy of the drafted SWPPP or a template with guidance from the USEPA Storm Water site.

Shall I wait to attached the RFIs until we get the formal process from Garrison? Or would you prefer for me to forward the information to (b) (6) and you. Then you can forward them to (b) (6).

Thank you, (b) (6)

(b) (6)

Not sure if you have seen these RFIs. Can you provide info for #1

1. PAWO. We have to use the PAWO process. Do you have a reference or someone who could help me with that?

(b) (6) -Can you provide the info for #2-3? Not sure if we can provide the SWPPP at this point in time.

2. SWPPP. The RFI responses state you drafted a SWPPP. Could you provide that draft? It would be helpful to have the format.

3. Storm Water Calculations. Understand the 95th percentile storm event. Can you provide a POC to validate our calculations?

Thank you,

AI-

For Wednesday's SVTC on the DHS mission, I need to provide info on Site Monitor. Here is the info I need:

- Breakdown of each structure at Site Monitor and its Q rating.
- If a structure is rated as Q4, then is it still authorized and/or advisable to be used by DHS for admin and/or wrap around facility use
- For my edification, how do we rate portable facilities. Some of the facilities there are relocatable and I'm not sure if we evaluate non-permanent structures.

Thanks.

Sir,

BLUF: Fort Bliss and HQDA are exploring authorities to offer Site Monitor facilities to LOGCAP and/or DHS for potential administrative use.

Support to DHS remains the priority of effort, although no further indication of a trigger to begin support.

POTENTIAL ADDITIONAL SUPPORT:

- Fort Bliss is prepared to offer Site Monitor (preexisting facilities adjacent to Parcel 2).
- Facilities are slated for future destruction, and use by either LOGCAP or DHS would not impact readiness or training. The facilities are not sufficient for housing purposes.
- Site Monitor could be used for LOGCAP C2 during contract execution or used by DHS for C2, or common area structures such as classroom(s), courtroom, media center, etc.

MEMORANDUM OF AGREEMENT (MOA): Draft DHS MOA continues FORSCOM GO/SES coordination.

AI-

For Wednesday's SVTC on the DHS mission, I need to provide info on Site Monitor. Here is the info I need:

- Breakdown of each structure at Site Monitor and its Q rating.
- If a structure is rated as Q4, then is it still authorized and/or advisable to be used by DHS for admin and/or wrap around facility use
- For my edification, how do we rate portable facilities. Some of the facilities there are relocatable and I'm not sure if we evaluate non-permanent structures.

Thanks.

Sir,

BLUF: Fort Bliss and HQDA are exploring authorities to offer Site Monitor facilities to LOGCAP and/or DHS for potential administrative use.

Support to DHS remains the priority of effort, although no further indication of a trigger to begin support.

POTENTIAL ADDITIONAL SUPPORT:

- Fort Bliss is prepared to offer Site Monitor (preexisting facilities adjacent to Parcel 2).
- Facilities are slated for future destruction, and use by either LOGCAP or DHS would not impact readiness or training. The facilities are not sufficient for housing purposes.
- Site Monitor could be used for LOGCAP C2 during contract execution or used by DHS for C2, or common area structures such as classroom(s), courtroom, media center, etc.

MEMORANDUM OF AGREEMENT (MOA): Draft DHS MOA continues FORSCOM GO/SES coordination.

Derrick,

I will be out of the office 4-15 June. Lee will be out of the office 1-11 June. If the site visit occurs before (b) (6) returns on 12 June, please ensure all on the email are provided with information/invitation. (b) (6) will have the lead for Master Planning Division.

Will,

Please coordinate with DPW Team and sure POCs are in attendance to discuss:

*utility locations (including underground): POC will be available on site, but utility info already provided (first attachment); all utilities must be metered; DHHS must set up a Utilities Sales Agreement (POC will be available to discuss)

*environmental concerns and requirements for use for this purpose: POC will be available on site

*land site preparation (I.e. grading, leveling): DHHS will have to perform/contract this effort; a Proprietary Approval Work Order must be submitted through the Work Order Desk by DHHS for siting and construction approval (POC will be available to discuss)

You will have to remind DHHS POC:

*public works for utilities, maps, charts (e.g. flood plain): DHHS will have to obtain flood plain maps from FEMA

*requirements to obtain the land usage permit(s) as required: POC for USACE Fort Worth District provided. DHHS must submit a real estate application for approval.

*discussion on clearance of contractors and base access: From the Real Estate perspective, Real Estate permit/license will authorize work on FBTX lands; Right of Entry (ROE) will be needed if immediate access is required. DHHS must contact USACE Real Estate POC.

Thank you!

(b) (6),

DPW prefers 29 May- 1 June or 12-15 June.

*utility locations (including underground): POC will be available on site, but utility info already provided (first attachment); all utilities must be metered; DHHS must set up a Utilities Sales Agreement (POC will be available to discuss)

*environmental concerns and requirements for use for this purpose: POC will be available on site

*land site preparation (I.e. grading, leveling): DHHS will have to perform/contract this effort; a Proprietary Approval Work Order must be submitted through the Work Order Desk by DHHS for siting and construction approval (POC will be available to discuss)

*public works for utilities, maps, charts (e.g. flood plain): DHHS will have to obtain flood plain maps from FEMA

*requirements to obtain the land usage permit(s) as required: POC for USACE Fort Worth District provided. DHHS must submit a real estate application for approval.

*discussion on clearance of contractors and base access: From the Real Estate perspective, Real Estate permit/license will authorize work on FBTX lands; Right of Entry (ROE) will be needed if immediate access is required. DHHS must contact USACE Real Estate POC.

*Additional items: DPW requests DES Fire POC in attendance at site visit

Please let me know if you need anything further.

To: (b) (6)

Subject: RE: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

Gentlemen,

OUSD-Policy just e-mailed me from a meeting at HHS.

The following concerns the previously noted site survey:

HHS would like to get started on scheduling survey dates. At present there is only one survey team, and HHS would like to visit Ft Bliss first.

The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

HHS teams would include public works types and contractors to review/discuss the topics described above. HHS estimates an HHS survey team being about 10 personnel, and the survey should be complete in one day.

Policy respectfully requests you provide some preferred dates for us to provide to HHS so they can make an informed decision.

Policy is requesting acceptable dates over the next three weeks.

Understand it may be too short to have that info today, but soonest would be much appreciated.

As a reminder, these surveys will require coordinated DoD/HHS congressional notification. That also means we need to be careful about sharing these dates until they are firm and appropriate notifications made.

Thank you for all your assistance with this matter.

Sir,

Just wanted to touch base.

We are still waiting for additional data from HHS regarding potential site survey to facilitate your decision process on setting potential dates.

OUSD believes HHS will conduct surveys regardless of current / identified need for sites.

Additionally, they have yet to issues a prioritization list, but will be surveying a few sites from other agencies next week, so that would slide an "earliest date" for FT Bliss to the right.

Word from Policy is that HHS liked FT Bliss and Goodfellow about the same, for different factors.

I will keep you apprised of any change.

Subject: FT Bliss Availability for Potential Site Survey

Gentlemen,

Thanks again for last week's assistance.

Separately, during a meeting today with OSD-Policy, they indicated HHS appreciation for last week's informal and initial site visit.

Policy also expressed a desire to know how soon, after the Memorial Day Weekend, FT Bliss (as well as the other potential installations from Air Force) would be able to conduct formal site visits.

We expect HHS to reveal their order of preference to policy today and could submit an RFA for the site visits any time after.

Policy wants to lean forward with some of the initial planning partly in order to go through the process once for all three potential installations, as opposed to doing each one separately.

If possible, I'd like to forward the potential survey date(s) to policy during tomorrow's meeting (1230 EDT / 1030 MDT)

Any help would be much appreciated.

Subject: RE: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

Gentlemen,

OUSD-Policy just e-mailed me from a meeting at HHS.

The following concerns the previously noted site survey:

HHS would like to get started on scheduling survey dates. At present there is only one survey team, and HHS would like to visit Ft Bliss first.

The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

HHS teams would include public works types and contractors to review/discuss the topics described above. HHS estimates an HHS survey team being about 10 personnel, and the survey should be complete in one day.

Policy respectfully requests you provide some preferred dates for us to provide to HHS so they can make an informed decision.

Policy is requesting acceptable dates over the next three weeks.

Understand it may be too short to have that info today, but soonest would be much appreciated.

As a reminder, these surveys will require coordinated DoD/HHS congressional notification. That also means we need to be careful about sharing these dates until they are firm and appropriate notifications made.

Thank you for all your assistance with this matter.

Subject: RE: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

Sir,

Just wanted to touch base.

We are still waiting for additional data from HHS regarding potential site survey to facilitate your decision process on setting potential dates.

OUSD believes HHS will conduct surveys regardless of current / identified need for sites.

Additionally, they have yet to issues a prioritization list, but will be surveying a few sites from other agencies next week, so that would slide an "earliest date" for FT Bliss to the right.

Word from Policy is that HHS liked FT Bliss and Goodfellow about the same, for different factors.

I will keep you apprised of any change.

Subject: FT Bliss Availability for Potential Site Survey

Gentlemen,

Thanks again for last week's assistance.

Separately, during a meeting today with OSD-Policy, they indicated HHS appreciation for last week's informal and initial site visit.

Policy also expressed a desire to know how soon, after the Memorial Day Weekend, FT Bliss (as well as the other potential installations from Air Force) would be able to conduct formal site visits.

We expect HHS to reveal their order of preference to policy today and could submit an RFA for the site visits any time after.

Policy wants to lean forward with some of the initial planning partly in order to go through the process once for all three potential installations, as opposed to doing each one separately.

If possible, I'd like to forward the potential survey date(s) to policy during tomorrow's meeting (1230 EDT / 1030 MDT)

Any help would be much appreciated.

For Wednesday's SVTC on the DHS mission, I need to provide info on Site Monitor. Here is the info I need:

- Breakdown of each structure at Site Monitor and its Q rating.
- If a structure is rated as Q4, then is it still authorized and/or advisable to be used by DHS for admin and/or wrap around facility use
- For my edification, how do we rate portable facilities. Some of the facilities there are relocatable and I'm not sure if we evaluate non-permanent structures.

Thanks.

Sir,

BLUF: Fort Bliss and HQDA are exploring authorities to offer Site Monitor facilities to LOGCAP and/or DHS for potential administrative use. Support to DHS remains the priority of effort, although no further indication of a trigger to begin support.

POTENTIAL ADDITIONAL SUPPORT:

- Fort Bliss is prepared to offer Site Monitor (preexisting facilities adjacent to Parcel 2).
- Facilities are slated for future destruction, and use by either LOGCAP or DHS would not impact readiness or training. The facilities are not sufficient for housing purposes.
- Site Monitor could be used for LOGCAP C2 during contract execution or used by DHS for C2, or common area structures such as classroom(s), courtroom, media center, etc.

MEMORANDUM OF AGREEMENT (MOA): Draft DHS MOA continues FORSCOM GO/SES coordination.

ALCON,

A recap of yesterday's and today's meeting:

- Camp population estimated to start at 2k and grow to 4K, 7.5K maximum
- area to be cleared approximately 75 acres (NEPA documents already cover this area).
- Environmental document estimated to take 14-21 days, will cover parcel #2
- Request to use Site monitor as a Co-located between DHS and DHHS, for storage, offices, etc..
- IOC - 10 Aug 18; potential to move right
- Site to use Army standards for construction
- Emergency services; generate an MOA between City and County for Montana Blvd
- Request for network services
- Need to submit service order for PRIDE to replace 66 signs, along Montana
- Repair existing 4-strand barbed wire along Montana Blvd, approximately 1/2 mile; some grading may be required.
- Site Monitor: water line has a dead end, could be the cause of contamination; recommend constructing a loop within the site.
- DHS to construct a security fence
- During site visit, several unidentified vehicles hastily left the dessert when survey group arrived
- Asked if DPW service contracts may be used, e.g. pest control, refuse collection, etc..

Subject: RE: Draft Utility Maps (UNCLASSIFIED)

Sir,

I have not been able to write an update on the meetings yesterday and today.

Big change today is that the LOGCAP team wants to develop parcels west of Site Monitor and utilize Site Monitor buildings for admin, medical, legal, etc.

Issues are going to be:

- pressurize system for water to use as fire suppression and restrooms in Site Monitor
- what is the potable source?
- how much power can be supplied from the Site Monitor to the DHS site?
- where are the sewage manholes at Site Monitor and the expected DHS site?

There are more issues that JR is capturing and some that I haven't thought of. Ms Waggoner had a few concerns that will need to be addressed as well.

More to follow.

Yours,

Sent: Tuesday, August 7, 2018 11:49 AM

To: (b) (6)

Subject: RE: DHS MOA Review S: COB Monday 6 Aug 18 (UNCLASSIFIED)

All,

I rewrote the LOGCAP sections to read:

3.3.3. Reimburse LOGCAP for its construction of a temporary shelter facility, consisting of soft sided shelters and portable infrastructure and provide logistical support, in support of DHS Alien Family Shelter Operations. The capacity and capabilities of the shelter facility will be based on criteria established by DHS. The Shelter facility will be contained within a temporary fence, with screening material, to ensure the privacy of the occupants and DHS staff. The fencing will be provided as part of the LOGCAP support package.

3.3.4. Reimburse LOGCAP for all services it provides to operate the logistical aspects of the facilities and land permitted to DHS. DHS will supply generator power, wastewater removal, refuse collection, grounds maintenance, facility maintenance/repair, appliance minor maintenance, and repair, kitchen hood maintenance, custodial services and portable latrines.

Whether that will be the final language or not I can't say but I am sure we will get to review the final draft.

All,

Manny brought up a good point regarding section 3.2.6. the section indicates that this will be on a reimbursable basis, but not sure how we are going to do this through the use of LOGCAP contracts? Are we going to provide these services through our service contracts or through LOGCAP contracts?

Thanks,

CLASSIFICATION: UNCLASSIFIED

OMD comments:

Section 3.2.6. we don't provide generator power, unless this is referring to utility power. Wastewater removal - if this is for i.e. septic tanks, we haven't been able to make Pride do this work so I would say we don't have a service contract for this work. We don't have a service contract for appliances, we do repair installed building equipment i.e. ice machines, kitchen ranges, as long as they are fixed to the facility, etc... Kitchen hood maintenance - we don't degrease kitchen hoods, we only maintain the exhaust and supply equipment and the hood's electrical/controls switches. MICC provides portable latrine services.

Thanks,

To: (b) (6)

Subject: RE: DHS MOA Review S: COB Monday 6 Aug 18 (UNCLASSIFIED)

All,

I rewrote the LOGCAP sections to read:

3.3.3. Reimburse LOGCAP for its construction of a temporary shelter facility, consisting of soft sided shelters and portable infrastructure and provide logistical support, in support of DHS Alien Family Shelter Operations. The capacity and capabilities of the shelter facility will be based on criteria established by DHS. The Shelter facility will be contained within a temporary fence, with screening material, to ensure the privacy of the occupants and DHS staff. The fencing will be provided as part of the LOGCAP support package.

3.3.4. Reimburse LOGCAP for all services it provides to operate the logistical aspects of the facilities and land permitted to DHS. DHS will supply generator power, wastewater removal, refuse collection, grounds maintenance, facility maintenance/repair, appliance minor maintenance, and repair, kitchen hood maintenance, custodial services and portable latrines.

Whether that will be the final language or not I can't say but I am sure we will get to review the final draft.

All,

Manny brought up a good point regarding section 3.2.6. the section indicates that this will be on a reimbursable basis, but not sure how we are going to do this through the use of LOGCAP contracts? Are we going to provide these services through our service contracts or through LOGCAP contracts?

Thanks,

JR,

The timeline for the NEPA has changed. (b) (6) at today's meeting said he wants a draft by this Friday.

Also, attached the list of assumptions and questions that we need answered for compliance purposes. I followed the format you submitted last week. (b) (6) as at the meeting this afternoon and (b) (6) is waiting for the assumption and questions.

After your review, please ensure that these are submitted to (b) (6).

Respectfully,

Sir, as requested. Second tab on Excel shows population x duration ratios, and where the \$201M lines up in that. Also, this ROM is without much DHS input, so rations and other services are included, but in recent discussions, I have heard that DHS will source all services (rations, water, ice, waste removal/disposal, etc via their own contracting mechanism) so that would impact the ROM.

(b) (6),

Cost estimate based on the site visit. Spreadsheet with updated ROM for the DHS Alien Family Housing at Fort Bliss is attached. Biggest change was the square footage required based on our observations at Dille. Also changed the perimeter fencing to match Dille and added cost to activate power, HVAC and data/telephone drops in existing structures at Site Monitor. Also included the assumptions used in formulating the ROM. Some services are included based on how Dille is operating. The DHS rep on the ground called (b) (6) during the visit and he told her he wanted the Bliss operation ran like the Dille operation. Many of the support contractors at Dille furnished the equipment when providing the service.

I am having LOGCAP back out services per our DC meeting - only Facilities (Office/living/administrative space) and furnishings. Somewhere in the middle will be the actual requirement.

DHS REC Feedback:

1. Without the requirements (which is what LOGCAP and DHS are working on now), DHS can't sign a REC.
2. The requirements should cover the type of construction, exact land size requirement, and other considerations (i.e. electrical/sewage/water run-off etc).
3. Until this finished, DHS cannot move forward on the REC. That was the whole purpose of permitting the land to them, so we didn't have to do it.
4. Our Environmental folks are trying to go direct to DHS to get a better understanding of exactly where they are in the process.

Al,

Per our telephone discussion I will plan to come by your building after the 1030A meeting this morning with (b) (6).

This will work out perfect as I've been tasked to provide detailed photos and topographical analysis of the proposed site area due to the significant cost in site prep required. Your input will be invaluable in establishing a baseline to support cost estimates and required construction funding and schedule timeline to meet the anticipated IOC/FOC dates.

I look forward to discussing all.

Subject: RE: Draft Utility Maps (UNCLASSIFIED)

ALCON,

A recap of yesterday's and today's meeting:

- Camp population estimated to start at 2k and grow to 4K, 7.5K maximum
- area to be cleared approximately 75 acres (NEPA documents already cover this area).
- Environmental document estimated to take 14-21 days, will cover parcel #2
- Request to use Site monitor as a Co-located between DHS and DHHS, for storage, offices, etc..
- IOC - 10 Aug 18; potential to move right
- Site to use Army standards for construction
- Emergency services; generate an MOA between City and County for Montana Blvd
- Request for network services
- Need to submit service order for PRIDE to replace 66 signs, along Montana
- Repair existing 4-strand barbed wire along Montana Blvd, approximately 1/2 mile; some grading may be required.
- Site Monitor: water line has a dead end, could be the cause of contamination; recommend constructing a loop within the site.
- DHS to construct a security fence
- During site visit, several unidentified vehicles hastily left the dessert when survey group arrived
- Asked if DPW service contracts may be used, e.g. pest control, refuse collection, etc..

Subject: RE: Draft Utility Maps (UNCLASSIFIED)

Sir,

I have not been able to write an update on the meetings yesterday and today.

Big change today is that the LOGCAP team wants to develop parcels west of Site Monitor and utilize Site Monitor buildings for admin, medical, legal, etc.

Issues are going to be:

- pressurize system for water to use as fire suppression and restrooms in Site Monitor
- what is the potable source?
- how much power can be supplied from the Site Monitor to the DHS site?
- where are the sewage manholes at Site Monitor and the expected DHS site?

There are more issues that (b) (6) is capturing and some that I haven't thought of. (b) (6) had a few concerns that will need to be addressed as well.

More to follow.

Yours,

(b)

Site Survey (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

All, the site survey related to the DHS/DHHS operation on Fort Bliss is scheduled to kick off in room 2027 of the 1AD HQs with a meet and greet, installation orientation, site orientation and initial RFIs. Once all is complete, DPTMS will provide transportation to the site for a terrain walk. Goal is to be back and complete in time for early afternoon departures for those of you flying out Friday afternoon. If you have RFIs special requirements, or anything else you think I need to be aware of to ensure the survey is a success, please let me know.

I know the survey is tentative at this time due to concerns with funding related actions prior to publishing of the EXORD, but expect that to be resolved tomorrow sometime. Till we get further guidance, we will continue to plan to execute Friday morning.

CLASSIFICATION: UNCLASSIFIED

All - Pls keep close hold.

NEPA team,

Pls see below. I participated in a conference call this morning about the Sec Def's directive to have the Army support DHS and DHHS with the construction of two facilities for the two Departments to conduct their migrant housing/detention operations. The initial concept where the Army would just allow the use of the land and DHS and DHHS would make their arrangements to have the facilities constructed is no longer the case. Under the current plan, the Army will construct the two camps and once constructed DHS and DHHS will begin operations. We need to conduct a review to determine what level of NEPA would be required based on the proposed action and what would be the best method of execution. Parcel's # 2 and # 3 in the attachment are the sites that could be used for the DHS and DHHS camps. Parcel #1 is not Ft. Bliss' preference, but if that parcel requires less NEPA work, the camps may end up going there instead. As of this morning, the plan calls for AMC's LOGCAP to do the site prep and setup the camps with all the required facilities.

(b) (6)

Pls schedule a meeting with everyone on the to line for tomorrow at 9:00.

(b) (6),

Pls provide me your POCs for the workgroup mentioned below.

Thx.

Subject: support to DHS and DHHS (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

Team, Fort Bliss has been issued a BPT mission from HQDA to provide support of Department of Health and Human Services' (DHHS) Unaccompanied Children (UAC) and Department of Homeland Security's (DHS) Family Relocation Centers (FRC).

Scope and timeline is as follows:

- IOC NLT 31 AUG 18 to provide DHHS support for 1,000 UACs. Incremental build up to 7,500 bed spaces (FOC).
- IOC NLT 10 AUG 18 to provide DHS support for 2,000 FRCs. Incremental build up to 4,000 bed spaces (FOC).

Similar to what occurred in 2016, when we supported DHHS at Dona Ana, there will be extensive coordination between the two agencies, our higher headquarters, and our installation. To that end, I have been directed by Garrison leadership to establish a core support team for the installation ISO this operation.

Right now, I see that team consisting of representatives from the following activities (feel free to make recommendations for additions to the core team).

DPTMS CUOPS

DPTMS Protections

G33, 1AD

DPW (environmental, utilities, access to site monitor gate and facilities) DES (Physical Security, FESD and LE)

Legal (Environmental and Admin law) RM (reimbursable tracking and MOA development) LRC (LOGCAP will be the primary provider for the site establishment) PAO

I need each agencies primary POC(s) name, email and contact information provided back to me NLT COB Wednesday, 27 Jun 18.

There is a site survey tentatively scheduled for this coming Friday, 29 Jun 18. Once I finalize that, I will ask that your representatives be made available to participate. Plan on meeting internally one hour prior to the arrival of the survey team so I can provide your representatives an overview of the operation and set conditions for a seamless site survey.

WebEOC will be the primary knowledge sharing platform for this operation. We will let you know when it is up and operational.

Due to the short time line to get to IOC, there are a lot of different agencies outside of Fort Bliss that have been, or will soon start trying to direct coordinate with your offices. To avoid friction, gaps, and potential disconnects, all coordination activity will flow in and out of DPTMS operations (rm 2027, 1AD HQs). If an agency reaches out to you directly, then in your response, cc me and (b) (6), so we can track the action. Not saying DIRLAUTH is not authorized (it absolutely is), just need you to keep my ops in the information loop, so we in turn can keep the Garrison Commander and Senior Commander informed (no surprises). To this end, we will implement daily BUBs in rm 2027 in the near future.

Request you keep the details of this event close hold as it is currently a BPT mission, not an assigned mission ISO of a HQDA EXORD (we do expect that in the next 48 hours).

CLASSIFICATION: UNCLASSIFIED

Sir,

As (b) (6) stated, DHHS is concerned with the amount of grading and compaction required to make the site useable. They asked about the availability of using the hardstand on that dead end road for their site (see attached). I told them we have a MILCON project to construct SSAs along that road starting in FY19. Also explained is would only provide a couple of acres for them to set up operations. Not sure we want to entertain this as an option unless they complete their mission and restore any damages to the road prior to the SSA project start in FY19.

v/r,

Subject: RE: DHHS Site Survey (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

(b) (6)

Just got back from this site survey. ED, MPD, SED, and OMD attended the meeting. DHHS wanted to see the site again to take a closer look at the utility infrastructure and land. I showed them the utility maps again. DHHS just needed to see how close the utilities are to the area that is being considered over by Liberty Road and the Industrial complex.

DHHS was hoping for the land to be a bit more flat, but they will have to do a lot of grading if they select this area. I also repeated what we discussed with (b) (6) last week regarding DPW's manpower requirement if DHHS decides to build in this area in order for DPW to support DHHS with real property actions and the use of our privatized utility providers. I also mentioned that they can also approach El Paso utilities. DHHS is still considering going all portable, but no definite answer could be provided at this time. ED reminded them that they would need permits if they use generator power. No timeline could be given to the group until DHHS selects the site.

They also asked (b) (6) a few questions about using the paved road, mainly the dead end over by the SSA warehouses, but I'll let (b) (6) fill you in on this.

Thanks,

(b) (6)

(b) (6)

I will be out of the office 4-15 June. (b) (6) will be out of the office 1-11 June. If the site visit occurs before (b) (6) returns on 12 June, please ensure all on the email are provided with information/invitation. (b) (6) will have the lead for Master Planning Division.

(b) (6)

Please coordinate with DPW Team and sure POCs are in attendance to discuss:

*utility locations (including underground): POC will be available on site, but utility info already provided (first attachment); all utilities must be metered; DHHS must set up a Utilities Sales Agreement (POC will be available to discuss)

*environmental concerns and requirements for use for this purpose: POC will be available on site

*land site preparation (I.e. grading, leveling): DHHS will have to perform/contract this effort; a Proprietary Approval Work Order must be submitted through the Work Order Desk by DHHS for siting and construction approval (POC will be available to discuss)

You will have to remind DHHS POC:

*public works for utilities, maps, charts (e.g. flood plain): DHHS will have to obtain flood plain maps from FEMA

*requirements to obtain the land usage permit(s) as required: POC for USACE Fort Worth District provided. DHHS must submit a real estate application for approval.

*discussion on clearance of contractors and base access: From the Real Estate perspective, Real Estate permit/license will authorize work on FBTX lands; Right of Entry (ROE) will be needed if immediate access is required.

DHHS must contact USACE Real Estate POC.

Thank you!

CLASSIFICATION: UNCLASSIFIED

(b) (6)

I will defer to the DPW team to select preferred dates over the next three weeks for HHS to visit to conduct a survey of the land previously identified. This time around will be much more detail focused that the recent

site visit. The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

We should be able to manage the majority of the coordination in one to two days, and will primarily work out of the conference room in 2027, 1AD HQs.

Please provide me your preferred dates before noon tomorrow or give me a call if DPW cannot respond that quickly. Once we lock in dates, you and I can coordinate the details of who needs to attend and what maps, charts, documents that would be appropriate to have available.

DES, we will need same degree of fidelity available for this survey to get after the clearance of contractors and access to the installation.

To the team-I guess they didn't like my recommendation to go to Goodfellow in San Antonio.

Subject: RE: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

Gentlemen,

OUSD-Policy just e-mailed me from a meeting at HHS.

The following concerns the previously noted site survey:

HHS would like to get started on scheduling survey dates. At present there is only one survey team, and HHS would like to visit Ft Bliss first.

The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

HHS teams would include public works types and contractors to review/discuss the topics described above. HHS estimates an HHS survey team being about 10 personnel, and the survey should be complete in one day.

Policy respectfully requests you provide some preferred dates for us to provide to HHS so they can make an informed decision.

Policy is requesting acceptable dates over the next three weeks.

Understand it may be too short to have that info today, but soonest would be much appreciated.

As a reminder, these surveys will require coordinated DoD/HHS congressional notification. That also means we need to be careful about sharing these dates until they are firm and appropriate notifications made.

Thank you for all your assistance with this matter.

Sir,

Just wanted to touch base.

We are still waiting for additional data from HHS regarding potential site survey to facilitate your decision process on setting potential dates.

OUSD believes HHS will conduct surveys regardless of current / identified need for sites.

Additionally, they have yet to issues a prioritization list, but will be surveying a few sites from other agencies next week, so that would slide an "earliest date" for FT Bliss to the right.

Word from Policy is that HHS liked FT Bliss and Goodfellow about the same, for different factors.

I will keep you apprised of any change.

(b) (6)

Subject: FT Bliss Availability for Potential Site Survey

Gentlemen,

Thanks again for last week's assistance.

Separately, during a meeting today with OSD-Policy, they indicated HHS appreciation for last week's informal and initial site visit.

Policy also expressed a desire to know how soon, after the Memorial Day Weekend, FT Bliss (as well as the other potential installations from Air Force) would be able to conduct formal site visits.

We expect HHS to reveal their order of preference to policy today and could submit an RFA for the site visits any time after.

Policy wants to lean forward with some of the initial planning partly in order to go through the process once for all three potential installations, as opposed to doing each one separately.

If possible, I'd like to forward the potential survey date(s) to policy during tomorrow's meeting (1230 EDT / 1030 MDT)

Any help would be much appreciated.

Ma'am,

RFI FBTX-19: Dig Permits: Understand DPW will submit dig permits prior to excavation. How will this process to be initiated and coordinated? -

My understanding is the LOGCAP is the project owner and they will submit a PA for approval and then LOGCAP will coordinate the dig permit for the parcel. DPW will help coordinate reviews in order to expedite the process, but the LOGCAP owner is responsible for building the dig permit and obtaining signatures to approve the digging.

More to follow.

Yours,

Importance: High

CLASSIFICATION: UNCLASSIFIED

Team,

Please see attached a list of RFIs from LOGCAP ref potential camp build IVO Site Monitor. Tracking that you have done a lot of research and Q/A for the past few weeks.

1. Please provide (b) (6) by COB 7 AUG 10 a date estimate on when you can have answers to the attached RFIs.
2. Please send your respective updates/answers to (b) (6) NLT COB 9 AUG 18 for DPW and DDPW's review and approval.
3. Once approved by DPW, (b) (6) will send the DPW consolidated answers to (b) (6).

Thanks,

(b) (6)

All,

1. Need dust control when they are clearing.
2. Need to separate all the illegally dumped trash, tires, etc. and not bury it in the "mound" the LOGCAP contractor said they would do east/west for optics.

On our way there, we noticed all the signs along Montana Ave are faded - JR counted 65 signs. Also many trespassers.

Respectfully,

(b) (6)

Subject: RE: Draft Utility Maps (UNCLASSIFIED)

Sir,

I have not been able to write an update on the meetings yesterday and today.

Big change today is that the LOGCAP team wants to develop parcels west of Site Monitor and utilize Site Monitor buildings for admin, medical, legal, etc.

Issues are going to be:

- pressurize system for water to use as fire suppression and restrooms in Site Monitor
- what is the potable source?
- how much power can be supplied from the Site Monitor to the DHS site?
- where are the sewage manholes at Site Monitor and the expected DHS site?

There are more issues that (b) (6) is capturing and some that I haven't thought of. (b) (6) had a few concerns that will need to be addressed as well.

More to follow.

Yours,

(b) (6)

(b) (6),

Is this map still needed? If so, do you want the dimension in feet from the hospital electrical substation to site-monitor and from Montana to site-monitor along the existing roads cutting through the parcel or along the boundary of the parcel to the areas?

Thank you,

They were asking for the portion of the parcel that is covered by the EA. They don't want to plan something in a location that they come to find out is not within the perimeter of the footprint offered.

Subject: DHHS FT Bliss Site Survey (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

(b) (6),

I will be out of the office 4-15 June. Lee will be out of the office 1-11 June. If the site visit occurs before (b) (6) returns on 12 June, please ensure all on the email are provided with information/invitation. (b) (6) will have the lead for Master Planning Division.

(b) (6),

Please coordinate with DPW Team and sure POCs are in attendance to discuss:

*utility locations (including underground): POC will be available on site, but utility info already provided (first attachment); all utilities must be metered; DHHS must set up a Utilities Sales Agreement (POC will be available to discuss)

*environmental concerns and requirements for use for this purpose: POC will be available on site

*land site preparation (I.e. grading, leveling): DHHS will have to perform/contract this effort; a Proprietary Approval Work Order must be submitted through the Work Order Desk by DHHS for siting and construction approval (POC will be available to discuss)

You will have to remind DHHS POC:

*public works for utilities, maps, charts (e.g. flood plain): DHHS will have to obtain flood plain maps from FEMA

*requirements to obtain the land usage permit(s) as required: POC for USACE Fort Worth District provided. DHHS must submit a real estate application for approval.

*discussion on clearance of contractors and base access: From the Real Estate perspective, Real Estate permit/license will authorize work on FBTX lands; Right of Entry (ROE) will be needed if immediate access is required. DHHS must contact USACE Real Estate POC.

Thank you!

CLASSIFICATION: UNCLASSIFIED

(b) (6)

DPW prefers 29 May- 1 June or 12-15 June.

*utility locations (including underground): POC will be available on site, but utility info already provided (first attachment); all utilities must be metered; DHHS must set up a Utilities Sales Agreement (POC will be available to discuss)

*environmental concerns and requirements for use for this purpose: POC will be available on site

*land site preparation (I.e. grading, leveling): DHHS will have to perform/contract this effort; a Proprietary Approval Work Order must be submitted through the Work Order Desk by DHHS for siting and construction approval (POC will be available to discuss)

*public works for utilities, maps, charts (e.g. flood plain): DHHS will have to obtain flood plain maps from FEMA

*requirements to obtain the land usage permit(s) as required: POC for USACE Fort Worth District provided. DHHS must submit a real estate application for approval.

*discussion on clearance of contractors and base access: From the Real Estate perspective, Real Estate permit/license will authorize work on FBTX lands; Right of Entry (ROE) will be needed if immediate access is required. DHHS must contact USACE Real Estate POC.

*Additional items: DPW requests DES Fire POC in attendance at site visit

Please let me know if you need anything further.

Subject: FW: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

(b) (6), I will defer to the DPW team to select preferred dates over the next three weeks for HHS to visit to conduct a survey of the land previously identified. This time around will be much more detail focused than the recent site visit. The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

We should be able to manage the majority of the coordination in one to two days, and will primarily work out of the conference room in 2027, 1AD HQs.

Please provide me your preferred dates before noon tomorrow or give me a call if DPW cannot respond that quickly. Once we lock in dates, you and I can coordinate the details of who needs to attend and what maps, charts,

documents that would be appropriate to have available.

DES, we will need same degree of fidelity available for this survey to get after the clearance of contractors and access to the installation.

To the team-I guess they didn't like my recommendation to go to Goodfellow in San Antonio.

Subject: RE: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

Gentlemen,

OUSD-Policy just e-mailed me from a meeting at HHS.

The following concerns the previously noted site survey:

HHS would like to get started on scheduling survey dates. At present there is only one survey team, and HHS would like to visit Ft Bliss first.

The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

HHS teams would include public works types and contractors to review/discuss the topics described above. HHS estimates an HHS survey team being about 10 personnel, and the survey should be complete in one day.

Policy respectfully requests you provide some preferred dates for us to provide to HHS so they can make an informed decision.

Policy is requesting acceptable dates over the next three weeks.

Understand it may be too short to have that info today, but soonest would be much appreciated.

As a reminder, these surveys will require coordinated DoD/HHS congressional notification. That also means we need to be careful about sharing these dates until they are firm and appropriate notifications made.

Thank you for all your assistance with this matter.

Sir,

Just wanted to touch base.

We are still waiting for additional data from HHS regarding potential site survey to facilitate your decision process on setting potential dates.

OUSD believes HHS will conduct surveys regardless of current / identified need for sites.

Additionally, they have yet to issues a prioritization list, but will be surveying a few sites from other agencies next week, so that would slide an "earliest date" for FT Bliss to the right.

Word from Policy is that HHS liked FT Bliss and Goodfellow about the same, for different factors.

I will keep you apprised of any change.

Subject: FT Bliss Availability for Potential Site Survey

Gentlemen,

Thanks again for last week's assistance.

Separately, during a meeting today with OSD-Policy, they indicated HHS appreciation for last week's informal and initial site visit.

Policy also expressed a desire to know how soon, after the Memorial Day Weekend, FT Bliss (as well as the other potential installations from Air Force) would be able to conduct formal site visits.

We expect HHS to reveal their order of preference to policy today and could submit an RFA for the site visits any time after.

Policy wants to lean forward with some of the initial planning partly in order to go through the process once for all three potential installations, as opposed to doing each one separately.

If possible, I'd like to forward the potential survey date(s) to policy during tomorrow's meeting (1230 EDT / 1030 MDT)

Any help would be much appreciated.

(b) (6) ,

I sent a request to the utility providers for the general condition response.

What info does MPD have on these bldgs. including pictures? The general condition should fall under MPD, but if you are having facility issues that will be on OMD. If we have ISR inspection reports we will share with the group. If a joint inspection is needed to get the general condition please request one and we will support MPD.

Thanks,

Al-

For Wednesday's SVTC on the DHS mission, I need to provide info on Site Monitor. Here is the info I need:

- Breakdown of each structure at Site Monitor and its Q rating.
- If a structure is rated as Q4, then is it still authorized and/or advisable to be used by DHS for admin and/or wrap around facility use
- For my edification, how do we rate portable facilities. Some of the facilities there are relocatable and I'm not sure

if we evaluate non-permanent structures.

Thanks.

Sir,

BLUF: Fort Bliss and HQDA are exploring authorities to offer Site Monitor facilities to LOGCAP and/or DHS for potential administrative use.

Support to DHS remains the priority of effort, although no further indication of a trigger to begin support.

POTENTIAL ADDITIONAL SUPPORT:

- Fort Bliss is prepared to offer Site Monitor (preexisting facilities adjacent to Parcel 2).
- Facilities are slated for future destruction, and use by either LOGCAP or DHS would not impact readiness or training. The facilities are not sufficient for housing purposes.
- Site Monitor could be used for LOGCAP C2 during contract execution or used by DHS for C2, or common area structures such as classroom(s), courtroom, media center, etc.

MEMORANDUM OF AGREEMENT (MOA): Draft DHS MOA continues FORSCOM GO/SES coordination.

Subject: FW: support to DHS and DHHS (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

All - Pls keep close hold.

NEPA team,

Pls see below. I participated in a conference call this morning about the Sec Def's directive to have the Army support DHS and DHHS with the construction of two facilities for the two Departments to conduct their migrant housing/detention operations. The initial concept where the Army would just allow the use of the land and DHS and DHHS would make their arrangements to have the facilities constructed is no longer the case. Under the current plan, the Army will construct the two camps and once constructed DHS and DHHS will begin operations. We need to conduct a review to determine what level of NEPA would be required based on the proposed action and what would be the best method of execution. Parcel's # 2 and # 3 in the attachment are the sites that could be used for the DHS and DHHS camps. Parcel #1 is not Ft. Bliss' preference, but if that parcel requires less NEPA work, the camps may end up going there instead. As of this morning, the plan calls for AMC's LOGCAP to do the site prep and setup the camps with all the required facilities.

(b) (6),

Pls schedule a meeting with everyone on the to line for tomorrow at 9:00.

(b) (6)

Pls provide me your POCs for the workgroup mentioned below.

Thx.

Subject: support to DHS and DHHS (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

Team, Fort Bliss has been issued a BPT mission from HQDA to provide support of Department of Health and Human Services' (DHHS) Unaccompanied Children (UAC) and Department of Homeland Security's (DHS) Family Relocation Centers (FRC).

Scope and timeline is as follows:

- IOC NLT 31 AUG 18 to provide DHHS support for 1,000 UACs. Incremental build up to 7,500 bed spaces (FOC).
- IOC NLT 10 AUG 18 to provide DHS support for 2,000 FRCs. Incremental build up to 4,000 bed spaces (FOC).

Similar to what occurred in 2016, when we supported DHHS at Dona Ana, there will be extensive coordination between the two agencies, our higher headquarters, and our installation. To that end, I have been directed by

Garrison leadership to establish a core support team for the installation ISO this operation.

Right now, I see that team consisting of representatives from the following activities (feel free to make recommendations for additions to the core team).

DPTMS CUOPS

DPTMS Protections

G33, 1AD

DPW (environmental, utilities, access to site monitor gate and facilities) DES (Physical Security, FESD and LE) Legal (Environmental and Admin law) RM (reimbursable tracking and MOA development) LRC (LOGCAP will be the primary provider for the site establishment) PAO

I need each agencies primary POC(s) name, email and contact information provided back to me NLT COB Wednesday, 27 Jun 18.

There is a site survey tentatively scheduled for this coming Friday, 29 Jun 18. Once I finalize that, I will ask that your representatives be made available to participate. Plan on meeting internally one hour prior to the arrival of the survey team so I can provide your representatives an overview of the operation and set conditions for a seamless site survey.

WebEOC will be the primary knowledge sharing platform for this operation. We will let you know when it is up and operational.

Due to the short time line to get to IOC, there are a lot of different agencies outside of Fort Bliss that have been, or will soon start trying to direct coordinate with your offices. To avoid friction, gaps, and potential disconnects, all coordination activity will flow in and out of DPTMS operations (rm 2027, 1AD HQs). If an agency reaches out to you directly, then in your response, cc me and Brandon Gangstad, so we can track the action. Not saying DIRLAUTH is not authorized (it absolutely is), just need you to keep my ops in the information loop, so we in turn can keep the Garrison Commander and Senior Commander informed (no surprises). To this end, we will implement daily BUBs in rm 2027 in the near future.

Request you keep the details of this event close hold as it is currently a BPT mission, not an assigned mission ISO of a HQDA EXORD (we do expect that in the next 48 hours).

RE: DHHS Site Survey (UNCLASSIFIED)

Date:

Tuesday, June 12, 2018 1:42:03 PM

CLASSIFICATION: UNCLASSIFIED

(b) (6),

Just got back from this site survey. ED, MPD, SED, and OMD attended the meeting. DHHS wanted to see the site again to take a closer look at the utility infrastructure and land. I showed them the utility maps again. DHHS just needed to see how close the utilities are to the area that is being considered over by Liberty Road and the Industrial complex.

DHHS was hoping for the land to be a bit more flat, but they will have to do a lot of grading if they select this area. I also repeated what we discussed with (b) (6) last week regarding DPW's manpower requirement if DHHS decides to build in this area in order for DPW to support DHHS with real property actions and the use of our privatized utility providers. I also mentioned that they can also approach El Paso utilities. DHHS is still considering going all portable, but no definite answer could be provided at this time. ED reminded them that they would need permits if they use generator power. No timeline could be given to the group until DHHS selects the site.

They also asked Lee a few questions about using the paved road, mainly the dead end over by the SSA warehouses, but I'll let Lee fill you in on this.

Thanks,

(b) (6)

Al-

For Wednesday's SVTC on the DHS mission, I need to provide info on Site Monitor. Here is the info I need:

- Breakdown of each structure at Site Monitor and its Q rating.
- If a structure is rated as Q4, then is it still authorized and/or advisable to be used by DHS for admin and/or wrap around facility use

- For my edification, how do we rate portable facilities. Some of the facilities there are relocatable and I'm not sure if we evaluate non-permanent structures.

Thanks.

(b) (6)

BLUF: Fort Bliss and HQDA are exploring authorities to offer Site Monitor facilities to LOGCAP and/or DHS for potential administrative use.

Support to DHS remains the priority of effort, although no further indication of a trigger to begin support.

POTENTIAL ADDITIONAL SUPPORT:

- Fort Bliss is prepared to offer Site Monitor (preexisting facilities adjacent to Parcel 2).
- Facilities are slated for future destruction, and use by either LOGCAP or DHS would not impact readiness or training. The facilities are not sufficient for housing purposes.
- Site Monitor could be used for LOGCAP C2 during contract execution or used by DHS for C2, or common area structures such as classroom(s), courtroom, media center, etc.

MEMORANDUM OF AGREEMENT (MOA): Draft DHS MOA continues FORSCOM GO/SES coordination.

Al,

Per our telephone discussion I will plan to come by your building after the 1030A meeting this morning with (b) (6).

This will work out perfect as I've been tasked to provide detailed photos and topographical analysis of the proposed site area due to the significant cost in site prep required. Your input will be invaluable in establishing a baseline to support cost estimates and required construction funding and schedule timeline to meet the anticipated IOC/FOC dates.

I look forward to discussing all.

v/r

Subject: FW: Air regulatory requirements for DHS support (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

Hi (b) (6) go with this inf...

As per our conversation yesterday:

1) Using generators (INTERNAL COMBUSTION RECIPROCATING ENGINES)in the camp will not require any registration or trigger any regulatory air requirements since they will be considered a mobile source as per 40 CFR Part 1068 . EPA would consider a portable engine stationary and subject to the NSPS-NESHAP if it: 1.) Remains at the same location for more than 12 consecutive months.

2) If the plan is to have them longer than a year than authorization as per 40 CFR part 60 subpart iiiii (4207) will be needed.

The possible authorizations would be

- a) PBR 106.512. This will take approx. 30 days
- b) Standard permit PI-S (Electric Generating Unit Standard Permit) or
- b) PI-1 case-by-case permit. This will take a year or more **however, without knowing the size and number of units, it is not possible to know which authorization would work.

***The tricky part is, if you go under the assumption that they will be present for less than a year, but you determine sometime down the road during that year period that they will be needed longer than a year, then at that point, you would have to stop operating and get the correct authorization, which could take 30 days or so at the short end if the PBR would work, and a year or more if a PI-1 is needed.

Thank you

Subject: SPCC Plan

(b) (6),

We can add any POL containers 55-gallons or more to our current SPCC Plan for 6 months before DHS has to create their own SPCC Plan (we would have to review). We would need a POC so we can access the site for photos, inventory and training. Training would include guidance on secondary containment, spill response and how to conduct monthly inspections on any tanks and generators as part of the PST program.

Please let me know if you have any questions.

Thank you.

My understanding it either came from the garrison commander after our 130 discussion yesterday or the attorneys brought it up.

FYSA. Ft Bliss commander (b) (6) briefed the REC could be completed and signed 7 days after EXORD is issued. As of the VTC this afternoon, the OSD Action Memo was not signed, which is holding up the EXORD. Also, any press releases are being held until after the 4th of July. v/r (b) (6)

Subject: REC for Bliss Looking Good.

(b) (6)

I'll give you a ring in a moment to discuss a few details, but after talking with the environmental attorney at Bliss this morning at length, she, I, and ELD are pretty comfortable that a REC could be handily assembled. I have offered AEC OC assistance in this endeavor, but at the moment I was told Bliss didn't think it was going to be too big a deal based upon the pre-existing NEPA you referenced in your voicemail to me this morning.

So, I think we can safely say for the moment, barring anything surprising at the site visits (including major changes to the proposed action provided by DHS or HHS) today, that a REC is possible and that the lawyers are lined up to assist and provide a legal sufficiency determination.

Subject: FW: support to DHS and DHHS (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

All - Pls keep close hold.

NEPA team,

Pls see below. I participated in a conference call this morning about the Sec Def's directive to have the Army support DHS and DHHS with the construction of two facilities for the two Departments to conduct their migrant housing/detention operations. The initial concept where the Army would just allow the use of the land and DHS and DHHS would make their arrangements to have the facilities constructed is no longer the case. Under the current plan, the Army will construct the two camps and once constructed DHS and DHHS will begin operations. We need to conduct a review to determine what level of NEPA would be required based on the proposed action and what would be the best method of execution. Parcel's # 2 and # 3 in the attachment are the sites that could be used for the DHS and DHHS camps. Parcel #1 is not Ft. Bliss' preference, but if that parcel requires less NEPA work, the camps may end up going there instead. As of this morning, the plan calls for AMC's LOGCAP to do the site prep and setup the camps with all the required facilities.

(b) (6),

Pls schedule a meeting with everyone on the to line for tomorrow at 9:00.

(b) (6),

Pls provide me your POCs for the workgroup mentioned below.

Subject: support to DHS and DHHS (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

Team, Fort Bliss has been issued a BPT mission from HQDA to provide support of Department of Health and Human Services' (DHHS) Unaccompanied Children (UAC) and Department of Homeland Security's (DHS) Family Relocation Centers (FRC).

Scope and timeline is as follows:

- IOC NLT 31 AUG 18 to provide DHHS support for 1,000 UACs. Incremental build up to 7,500 bed spaces (FOC).
- IOC NLT 10 AUG 18 to provide DHS support for 2,000 FRCs. Incremental build up to 4,000 bed spaces (FOC).

Similar to what occurred in 2016, when we supported DHHS at Dona Ana, there will be extensive coordination between the two agencies, our higher headquarters, and our installation. To that end, I have been directed by Garrison leadership to establish a core support team for the installation ISO this operation.

Right now, I see that team consisting of representatives from the following activities (feel free to make recommendations for additions to the core team).

DPTMS CUOPS
DPTMS Protections
G33, 1AD

DPW (environmental, utilities, access to site monitor gate and facilities) DES (Physical Security, FESD and LE) Legal (Environmental and Admin law) RM (reimbursable tracking and MOA development) LRC (LOGCAP will be the primary provider for the site establishment) PAO

I need each agencies primary POC(s) name, email and contact information provided back to me NLT COB Wednesday, 27 Jun 18.

There is a site survey tentatively scheduled for this coming Friday, 29 Jun 18. Once I finalize that, I will ask that your representatives be made available to participate. Plan on meeting internally one hour prior to the arrival of the survey team so I can provide your representatives an overview of the operation and set conditions for a seamless site survey.

WebEOC will be the primary knowledge sharing platform for this operation. We will let you know when it is up and operational.

Due to the short time line to get to IOC, there are a lot of different agencies outside of Fort Bliss that have been, or will soon start trying to direct coordinate with your offices. To avoid friction, gaps, and potential disconnects, all coordination activity will flow in and out of DPTMS operations (rm 2027, 1AD HQs). If an agency reaches out to you directly, then in your response, cc me and Brandon Gangstad, so we can track the action. Not saying DIRLAUTH is not authorized (it absolutely is), just need you to keep my ops in the information loop, so we in turn can keep the Garrison Commander and Senior Commander informed (no surprises). To this end, we will implement daily BUBs in rm 2027 in the near future.

Request you keep the details of this event close hold as it is currently a BPT mission, not an assigned mission ISO of a HQDA EXORD (we do expect that in the next 48 hours).

Subject: DHHS FT Bliss Site Survey (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

(b) (6),

I will be out of the office 4-15 June. Lee will be out of the office 1-11 June. If the site visit occurs before Lee returns on 12 June, please ensure all on the email are provided with information/invitation. Will Sotomayor will have the lead for Master Planning Division.

(b) ,

Please coordinate with DPW Team and sure POCs are in attendance to discuss:

*utility locations (including underground): POC will be available on site, but utility info already provided (first attachment); all utilities must be metered; DHHS must set up a Utilities Sales Agreement (POC will be available to discuss)

*environmental concerns and requirements for use for this purpose: POC will be available on site

*land site preparation (I.e. grading, leveling): DHHS will have to perform/contract this effort; a Proprietary Approval Work Order must be submitted through the Work Order Desk by DHHS for siting and construction approval (POC will be available to discuss)

You will have to remind DHHS POC:

*public works for utilities, maps, charts (e.g. flood plain): DHHS will have to obtain flood plain maps from FEMA

*requirements to obtain the land usage permit(s) as required: POC for USACE Fort Worth District provided. DHHS must submit a real estate application for approval.

*discussion on clearance of contractors and base access: From the Real Estate perspective, Real Estate permit/license will authorize work on FBTX lands; Right of Entry (ROE) will be needed if immediate access is required. DHHS must contact USACE Real Estate POC.

Thank you!

CLASSIFICATION: UNCLASSIFIED

(b) (6), I will defer to the DPW team to select preferred dates over the next three weeks for HHS to visit to conduct a survey of the land previously identified. This time around will be much more detail focused than the recent site visit. The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

We should be able to manage the majority of the coordination in one to two days, and will primarily work out of the conference room in 2027, 1AD HQs.

Please provide me your preferred dates before noon tomorrow or give me a call if DPW cannot respond that quickly. Once we lock in dates, you and I can coordinate the details of who needs to attend and what maps, charts, documents that would be appropriate to have available.

DES, we will need same degree of fidelity available for this survey to get after the clearance of contractors and

access to the installation.

To the team-I guess they didn't like my recommendation to go to Goodfellow in San Antonio.

Subject: RE: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

Gentlemen,

OUSD-Policy just e-mailed me from a meeting at HHS.

The following concerns the previously noted site survey:

HHS would like to get started on scheduling survey dates. At present there is only one survey team, and HHS would like to visit Ft Bliss first.

The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

HHS teams would include public works types and contractors to review/discuss the topics described above. HHS estimates an HHS survey team being about 10 personnel, and the survey should be complete in one day.

Policy respectfully requests you provide some preferred dates for us to provide to HHS so they can make an informed decision.

Policy is requesting acceptable dates over the next three weeks.

Understand it may be too short to have that info today, but soonest would be much appreciated.

As a reminder, these surveys will require coordinated DoD/HHS congressional notification. That also means we need to be careful about sharing these dates until they are firm and appropriate notifications made.

Thank you for all your assistance with this matter.

Sir,

Just wanted to touch base.

We are still waiting for additional data from HHS regarding potential site survey to facilitate your decision process on setting potential dates.

OUSD believes HHS will conduct surveys regardless of current / identified need for sites.

Additionally, they have yet to issues a prioritization list, but will be surveying a few sites from other agencies next week, so that would slide an "earliest date" for FT Bliss to the right.

Word from Policy is that HHS liked FT Bliss and Goodfellow about the same, for different factors.

I will keep you apprised of any change.

Subject: FT Bliss Availability for Potential Site Survey

Gentlemen,

Thanks again for last week's assistance.

Separately, during a meeting today with OSD-Policy, they indicated HHS appreciation for last week's informal and initial site visit.

Policy also expressed a desire to know how soon, after the Memorial Day Weekend, FT Bliss (as well as the other potential installations from Air Force) would be able to conduct formal site visits.

We expect HHS to reveal their order of preference to policy today and could submit an RFA for the site visits any time after.

Policy wants to lean forward with some of the initial planning partly in order to go through the process once for all three potential installations, as opposed to doing each one separately.

If possible, I'd like to forward the potential survey date(s) to policy during tomorrow's meeting (1230 EDT / 1030 MDT)

Any help would be much appreciated.

(b) (6), I will defer to the DPW team to select preferred dates over the next three weeks for HHS to visit to conduct a survey of the land previously identified. This time around will be much more detail focused than the recent site visit. The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

We should be able to manage the majority of the coordination in one to two days, and will primarily work out of the conference room in 2027, 1AD HQs.

Please provide me your preferred dates before noon tomorrow or give me a call if DPW cannot respond that quickly. Once we lock in dates, you and I can coordinate the details of who needs to attend and what maps, charts, documents that would be appropriate to have available.

DES, we will need same degree of fidelity available for this survey to get after the clearance of contractors and access to the installation.

To the team-I guess they didn't like my recommendation to go to Goodfellow in San Antonio.

Subject: RE: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

Gentlemen,

OUSD-Policy just e-mailed me from a meeting at HHS.

The following concerns the previously noted site survey:

HHS would like to get started on scheduling survey dates. At present there is only one survey team, and HHS would like to visit Ft Bliss first.

The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

HHS teams would include public works types and contractors to review/discuss the topics described above. HHS estimates an HHS survey team being about 10 personnel, and the survey should be complete in one day.

Policy respectfully requests you provide some preferred dates for us to provide to HHS so they can make an informed decision.

Policy is requesting acceptable dates over the next three weeks.

Understand it may be too short to have that info today, but soonest would be much appreciated.

As a reminder, these surveys will require coordinated DoD/HHS congressional notification. That also means we need to be careful about sharing these dates until they are firm and appropriate notifications made.

Thank you for all your assistance with this matter.

Sir,

Just wanted to touch base.

We are still waiting for additional data from HHS regarding potential site survey to facilitate your decision process on setting potential dates.

OUSD believes HHS will conduct surveys regardless of current / identified need for sites.

Additionally, they have yet to issues a prioritization list, but will be surveying a few sites from other agencies next week, so that would slide an "earliest date" for FT Bliss to the right.

Word from Policy is that HHS liked FT Bliss and Goodfellow about the same, for different factors.

I will keep you apprised of any change.

Subject: FT Bliss Availability for Potential Site Survey

Gentlemen,

Thanks again for last week's assistance.

Separately, during a meeting today with OSD-Policy, they indicated HHS appreciation for last week's informal and initial site visit.

Policy also expressed a desire to know how soon, after the Memorial Day Weekend, FT Bliss (as well as the other potential installations from Air Force) would be able to conduct formal site visits.

We expect HHS to reveal their order of preference to policy today and could submit an RFA for the site visits any time after.

Policy wants to lean forward with some of the initial planning partly in order to go through the process once for all three potential installations, as opposed to doing each one separately.

If possible, I'd like to forward the potential survey date(s) to policy during tomorrow's meeting (1230 EDT / 1030 MDT)

Any help would be much appreciated.

RE: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

Date:

Wednesday, May 23, 2018 4:56:49 PM

Attachments:

CLASSIFICATION: UNCLASSIFIED

(b) (6)

DPW prefers 29 May- 1 June or 12-15 June.

*utility locations (including underground): POC will be available on site, but utility info already provided (first attachment); all utilities must be metered; DHHS must set up a Utilities Sales Agreement (POC will be available to discuss)

*environmental concerns and requirements for use for this purpose: POC will be available on site

*land site preparation (I.e. grading, leveling): DHHS will have to perform/contract this effort; a Proprietary Approval Work Order must be submitted through the Work Order Desk by DHHS for siting and construction approval (POC will be available to discuss)

*public works for utilities, maps, charts (e.g. flood plain): DHHS will have to obtain flood plain maps from FEMA

*requirements to obtain the land usage permit(s) as required: POC for USACE Fort Worth District provided. DHHS must submit a real estate application for approval.

*discussion on clearance of contractors and base access: From the Real Estate perspective, Real Estate permit/license will authorize work on FBTX lands; Right of Entry (ROE) will be needed if immediate access is required. DHHS must contact USACE Real Estate POC.

*Additional items: DPW requests DES Fire POC in attendance at site visit

Please let me know if you need anything further.

Good morning (b) (6),

Attached is an update to DPW-ED questions & answers on the planned move of fixed-wing activities to EPIA (new text in green). Thanks to Randy for chasing down many of the answers on the first go-round. The main issue remains the final word on munitions that may be handled. I also added a bit on what we need to draft a REC.

Please let me know if you have any questions or could use further clarification on anything.

Team, those are a lot of questions, that at this time, might prove difficult to get before mid week next week, as getting the EPIA data set could pose a challenge. As far as data that BAAF can provide, would ask Randy Stewart to start actioning that.

Randy, separate what you can answer (to include questions ref EPIA that we already know the answer to), versus what we need to send to EPIA as an RFI, and then send it forward to EPIA and cc me. I am TDY next Mon-Thu so won't be much help.

Subject: FW: 1515: NEPA/Support Agreements/ RFI Updates (UNCLASSIFIED)

(b) (6),

Legal/Environmental is working to address issue one/Task-Identify- what specifically is required to develop an achievable course of action to address NEPA. We have come up with the following questions that we need responses to in order to proceed. Once responses are received, we will convene to develop the course of action to address NEPA and be able to brief the RFI during the 3 Aug 18 update, mentioned in your email below. If possible, we would like responses by end of this week or early next week. We appreciate your help on this. Let us know if you need clarification on any of these items.

Issue One: FBTX NEPA requirements and scope have not been determined.

Task: Legal/Environmental: Identify what specifically is required to develop an achievable course of action to address NEPA, that does not exceed the current planning timeline.

Does the AF and/or Navy have some document that authorizes their use of these military ramps and if AF, Navy

and/or FAA have done any NEPA to cover this military use?

Would Army be using the military ramps that AF and Navy already use or would Army be using other areas of the airport?

What capabilities are being transferred to EPIA, that EPIA does not do now?

What is the amount of operations to transfer? How many flights/ aircraft, etc.

How many operations does EPIA already conduct?

How many military operations is EPIA already conducting? What % will this cause?

At Qtrly meeting of Biggs AAF, a safety risk analysis was going to be conducted. Has it be completed and can we have a copy?

Are there any documents or explanations sent to EPIA about how many aircraft or operations or other descriptions of how many more flight operations EPIA will be conducting? (drafts, anything would be helpful)

Send drafts agreements we can review that might tell us what actions are going to take place.

How many operations does EPIA already conduct? Surely this is a very small % of change in relation to EPIA operations.

From power point: "EPIA will be able to support the processing of Hazardous Cargo (large caliber ammunition, i.e. fuzzed ammo, 50 cal and larger)." (earlier power point said no large caliber or fuzzed ammunition would be "processed")

What does "process" mean? Simply load pallets of "hazardous cargo"?

Does EPIA do this already?

What are the FFA regulations that support this?

Are there assumptions or conditions necessary when "processing" or loading or whatever is happening with this hazardous cargo?

Is there a safety buffer requirement for "processing" or loading of "hazardous cargo"?

Thank you,

(b) (6)

Subject: RE: 1515: NEPA/Support Agreements/ RFI Updates (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

All, IAW (b) (6) direction at last week's meeting, the following RFIs are expected to be briefed during the 3 Aug 18 update, currently scheduled for 1515 in Garrison Conference room. If you have slides ISO the update, please send to me by COB 2 Aug 18.

Issue One: FBTX NEPA requirements and scope have not been determined.

Task: Legal/Environmental: Identify what specifically is required to develop an achievable course of action to address NEPA, that does not exceed the current planning timeline.

Issue Two: We have been unable to develop a supportable position as to what type agreement is appropriate between FBTX and EPIA, nor the funding mechanism to use to fund the operations.

Task: Legal/RM: Identify what specifically is required to develop a supportable course of action for a support agreement, IGSA, sole source contract, permit, etc that can be in place within the current planning timeline.

Issue Three: Shifting operations to EPIA would impact the FBTX CO-CO refueling operations; is there financial risk involved, and if so, how do we mitigate it?

Task: LRC/Legal: Determine the effect that using Atlantic Aviation sourced fuel would have on FBTX CO-CO refueling operations; establish mitigation strategy if the determination is made that there is financial risk.

Issue Four: There is an expected \$500k UFR related to operating costs while at EPIA (FY20)

Task: RM: Develop COAs for ensuring adequate funding is available to support operations at EPIA.

Subject: DHHS FT Bliss Site Survey (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

(b) (6),

I will be out of the office 4-15 June. Lee will be out of the office 1-11 June. If the site visit occurs before Lee returns on 12 June, please ensure all on the email are provided with information/invitation. Will Sotomayor will have the lead for Master Planning Division.

(b)

Please coordinate with DPW Team and sure POCs are in attendance to discuss:

*utility locations (including underground): POC will be available on site, but utility info already provided (first attachment); all utilities must be metered; DHHS must set up a Utilities Sales Agreement (POC will be available to discuss)

*environmental concerns and requirements for use for this purpose: POC will be available on site

*land site preparation (I.e. grading, leveling): DHHS will have to perform/contract this effort; a Proprietary Approval Work Order must be submitted through the Work Order Desk by DHHS for siting and construction approval (POC will be available to discuss)

You will have to remind DHHS POC:

*public works for utilities, maps, charts (e.g. flood plain): DHHS will have to obtain flood plain maps from FEMA

*requirements to obtain the land usage permit(s) as required: POC for USACE Fort Worth District provided. DHHS must submit a real estate application for approval.

*discussion on clearance of contractors and base access: From the Real Estate perspective, Real Estate permit/license will authorize work on FBTX lands; Right of Entry (ROE) will be needed if immediate access is required. DHHS must contact USACE Real Estate POC.

Thank you!

CLASSIFICATION: UNCLASSIFIED

(b) (6), I will defer to the DPW team to select preferred dates over the next three weeks for HHS to visit to conduct a survey of the land previously identified. This time around will be much more detail focused than the recent site visit. The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

We should be able to manage the majority of the coordination in one to two days, and will primarily work out of the conference room in 2027, 1AD HQs.

Please provide me your preferred dates before noon tomorrow or give me a call if DPW cannot respond that quickly. Once we lock in dates, you and I can coordinate the details of who needs to attend and what maps, charts, documents that would be appropriate to have available.

DES, we will need same degree of fidelity available for this survey to get after the clearance of contractors and access to the installation.

To the team-I guess they didn't like my recommendation to go to Goodfellow in San Antonio.

Subject: RE: FT Bliss Availability for Potential Site Survey (UNCLASSIFIED)

Gentlemen,

OUSD-Policy just e-mailed me from a meeting at HHS.

The following concerns the previously noted site survey:

HHS would like to get started on scheduling survey dates. At present there is only one survey team, and HHS would like to visit Ft Bliss first.

The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

HHS teams would include public works types and contractors to review/discuss the topics described above. HHS estimates an HHS survey team being about 10 personnel, and the survey should be complete in one day.

Policy respectfully requests you provide some preferred dates for us to provide to HHS so they can make an informed decision.

Policy is requesting acceptable dates over the next three weeks.

Understand it may be too short to have that info today, but soonest would be much appreciated.

As a reminder, these surveys will require coordinated DoD/HHS congressional notification. That also means we need to be careful about sharing these dates until they are firm and appropriate notifications made.

Thank you for all your assistance with this matter.

Sir,

Just wanted to touch base.

We are still waiting for additional data from HHS regarding potential site survey to facilitate your decision process on setting potential dates.

OUSD believes HHS will conduct surveys regardless of current / identified need for sites.

Additionally, they have yet to issues a prioritization list, but will be surveying a few sites from other agencies next week, so that would slide an "earliest date" for FT Bliss to the right.

Word from Policy is that HHS liked FT Bliss and Goodfellow about the same, for different factors.

I will keep you apprised of any change.

Subject: FT Bliss Availability for Potential Site Survey

Gentlemen,

Thanks again for last week's assistance.

Separately, during a meeting today with OSD-Policy, they indicated HHS appreciation for last week's informal and initial site visit.

Policy also expressed a desire to know how soon, after the Memorial Day Weekend, FT Bliss (as well as the other potential installations from Air Force) would be able to conduct formal site visits.

We expect HHS to reveal their order of preference to policy today and could submit an RFA for the site visits any time after.

Policy wants to lean forward with some of the initial planning partly in order to go through the process once for all three potential installations, as opposed to doing each one separately.

If possible, I'd like to forward the potential survey date(s) to policy during tomorrow's meeting (1230 EDT / 1030 MDT)

Any help would be much appreciated.

CLASSIFICATION: UNCLASSIFIED

(b) (6),

DPW prefers 29 May- 1 June or 12-15 June.

*utility locations (including underground): POC will be available on site, but utility info already provided (first attachment); all utilities must be metered; DHHS must set up a Utilities Sales Agreement (POC will be available to discuss)

*environmental concerns and requirements for use for this purpose: POC will be available on site

*land site preparation (I.e. grading, leveling): DHHS will have to perform/contract this effort; a Proprietary Approval Work Order must be submitted through the Work Order Desk by DHHS for siting and construction approval (POC will be available to discuss)

*public works for utilities, maps, charts (e.g. flood plain): DHHS will have to obtain flood plain maps from FEMA

*requirements to obtain the land usage permit(s) as required: POC for USACE Fort Worth District provided. DHHS must submit a real estate application for approval.

*discussion on clearance of contractors and base access: From the Real Estate perspective, Real Estate permit/license will authorize work on FBTX lands; Right of Entry (ROE) will be needed if immediate access is required. DHHS must contact USACE Real Estate POC.

*Additional items: DPW requests DES Fire POC in attendance at site visit

Please let me know if you need anything further.

(b) (6), I will defer to the DPW team to select preferred dates over the next three weeks for HHS to visit to conduct a survey of the land previously identified. This time around will be much more detail focused than the recent site visit. The functional aspect of the survey would include mutual (HHS/ DoD installation reps) personnel to discuss utility locations (including underground); environmental concerns and requirements for use for this purpose, to include land site preparation (I.e. grading, leveling); public works for utilities, maps, charts (e.g. flood plain) and requirements to obtain the land usage permit(s) as required, and a discussion on clearance of contractors and base access.

We should be able to manage the majority of the coordination in one to two days, and will primarily work out of the conference room in 2027, 1AD HQs.

Please provide me your preferred dates before noon tomorrow or give me a call if DPW cannot respond that quickly. Once we lock in dates, you and I can coordinate the details of who needs to attend and what maps, charts, documents that would be appropriate to have available.

DES, we will need same degree of fidelity available for this survey to get after the clearance of contractors and access to the installation.

To the team-I guess they didn't like my recommendation to go to Goodfellow in San Antonio.

RFI "FBTX-25"

Ed response to FBTX-25 #3. Consultation of the butterflyed trail has already been completed.
The section of the butterflyed trail in parcel 2 has already been consulted
on:

Per the State Historic Preservation Office (consultation October 25, 2015
for proposed land sale)-The segment of the butterflyed trail within parcel
does not contribute to the site's overall National Register significance.
Disposition of the parcel without protective measures will have no adverse
effect on the portions of the historic trail remaining on Fort Bliss
property.

I have included in spreadsheet as well.

Thank you,

(b) (6)

We have received follow on RFIs from ASC (LOGCAP) ISO of the DHS site plan development, based on our previous responses. On the attached excel, there are five (5) RFI's

DPW: RFI "FBTX-3" and RFI "FBTX-25" (the attached PP slide is ISO RFI FBTX-25)

DES (FESD): RFI "FBTX-1"=please provide response to questions 2, 3, and 4 in the Response column.

I will coord with ASC (LOGCAP) for the remaining two RFIs.

Call me or send me a note if you have questions.

(b) (6), as requested. Second tab on Excel shows population x duration ratios, and where the \$201M lines up in that. Also, this ROM is without much DHS input, so rations and other services are included, but in recent discussions, I have heard that DHS will source all services (rations, water, ice, waste removal/disposal, etc via their own contracting mechanism) so that would impact the ROM.

(b) (6)

Cost estimate based on the site visit. Spreadsheet with updated ROM for the DHS Alien Family Housing at Fort Bliss is attached. Biggest change was the square footage required based on our observations at Dille. Also changed the perimeter fencing to match Dille and added cost to activate power, HVAC and data/telephone drops in existing structures at Site Monitor. Also included the assumptions used in formulating the ROM. Some services are included based on how Dille is operating. The DHS rep on the ground called (b) (6) during the visit and he told her he wanted the Bliss operation ran like the Dille operation. Many of the support contractors at Dille furnished the equipment when providing the service.

I am having LOGCAP back out services per our DC meeting - only Facilities (Office/living/administrative space) and furnishings. Somewhere in the middle will be the actual requirement.

DHS REC Feedback:

1. Without the requirements (which is what LOGCAP and DHS are working on now), DHS can't sign a REC.
2. The requirements should cover the type of construction, exact land size requirement, and other considerations (i.e. electrical/sewage/water run-off etc).
3. Until this finished, DHS cannot move forward on the REC. That was the whole purpose of permitting the land to them, so we didn't have to do it.
4. Our Environmental folks are trying to go direct to DHS to get a better understanding of exactly where they are in the process.

They were asking for the portion of the parcel that is covered by the EA. They don't want to plan something in a location that they come to find out is not within the perimeter of the footprint offered.

Subject: RE: Draft Utility Maps (UNCLASSIFIED)

Are they requesting the gps coordinates for the entire parcel 2 boundary or specific locations from the field visit?

Thank you,

(b) (6)

For the DPW team, if possible, could we have someone available with keys for the buildings inside site monitor for tomorrow's site visit?

Also a reminder for the GPS plots for site two, as requested by LOGCAP
